

Models of interaction between the public and private sectors for the implementation of energy policies

Monday 23rd June 2014 (9.00 - 13.00)

Brussels, European Economic and Social Committee – Rue Treves, room TRE 7701

Local and regional authorities have a key role in achieving the EU climate and energy goals and in mobilising new financing for sustainable energy investments. This event will showcase in the context of the growth objectives of Europe and the movement of the Covenant of Mayors, the new models of collaboration between the public and private sectors in energy policy and sharing best practices in local projects.
